

together. respectful. creative

Our corporate values are firmly anchored under the 'achelos house of values'. In our rapid and technology-driven market, these values serve as clear orientation and shape our corporate culture.

We have developed the 'achelos house of values' together as a team. It gives us in all our future and technology related topics a value orientation. We are committed to these values together and we all ensure that they are upheld and further developed.

Interested?

If you would also like to become a technology pioneer and are interested in our innovative and dynamic organisation, then come and be part of the achelos team and send us your application!

We look forward to hearing from you!

Our job offers

together. fantastic.

career@achelos

About achelos

Since 2008 the manufacturer-independent company achelos GmbH from Paderborn has been developing innovative solutions, products, and services for security-critical application fields, focussing in particular on embedded systems. We convert security requirements into stable and future-proof solutions. This has helped us to establish ourselves as a key player in the market. Our long-standing customers include international groups from sectors such as telecommunications, automotive and healthcare. They rely on our proven expertise and appreciate our flexibility, as well as the security and quality of our products, solutions, and services.

Are you a team player?

Flat hierarchies through collegial leadership

Working in an open, collegial environment in accordance with defined values is our top priority. Under the motto "collegial growth", we work together to create sustainable products and solutions with great benefits for our customers and partners, while securing a great deal of creative leeway for us as a team.

Working students welcome

We are also happy to help working students get a start at our company. Secure yourself the opportunity to work in an exciting technical environment on solutions that make the digital future even more secure.

We are family-friendly and offer part-time options

Are you planning to get back to work or generally interested in a part-time opportunity? We offer flexible working hours and the possibility of mobile working.

Exciting projects await you!

Whether applicants with professional experience, motivated university graduates or students looking for their first work experience - we are always looking for innovative minds and team players in the areas of

- IT Security
- eHealth | Telematics Infrastructure
- Quality assurance
- SIM Management Systems
- eMobility
- Industrial IoT
- Network protocols: TLS, IKE, VPN
- Smartcards, Secure Elements und HSMs
- Development and test documentation according to Common Criteria
