**Fit for IT security –  
Holistic solutions for the digital healthcare sector**

**achelos, IS4IT KRITIS and Samhammer  
share a stand at DMEA 2022 in Berlin**

*Under the motto 'Fit for IT security!', achelos, IS4IT KRITIS and Samhammer present products and solutions for digitalisation in the healthcare sector at DMEA 2022 | Graphic: achelos*

**Paderborn, March 10, 2022 – achelos GmbH joins forces with IS4IT KRITIS GmbH and Samhammer AG as a Bronze Partner of DMEA 2022 in Hall 2.2 | Stand: B 106. Under the motto 'Fit for IT security!', the IT security companies present a comprehensive value chain with products, solutions and services for secure digitalisation in the German healthcare sector. The leading European trade fair for digital health will take place from 26 to 28 April 2022 in Berlin.**

---

### **Digitalisation in the healthcare sector remains a central theme of DMEA**

There are many aspects to digitalisation in the healthcare sector and these will be addressed at DMEA in the congress programme and the exhibition. The topic of Technology and Interoperability is on the agenda and covers complex themes such as management and monitoring of the IT infrastructure, system integration with the help of telematics solutions, as well as the central matter of IT security. Due to increasing cybersecurity attacks, companies in the healthcare sector also need to invest in and expand their security measures. Extensive and verifiable test management as well as experienced partners for the rollout and implementation of solutions are called for.

'Along with our partners, IS4IT KRITIS and Samhammer, we will introduce visitors to our stand to a holistic value chain for eHealth solutions in the field of IT infrastructure, telemedicine and new telematics infrastructure 2.0. These synergy effects are unique within the industry. All the partners have experience with complex environments and critical infrastructures, possess industry knowledge and contribute specific expertise that is indispensable for successful digitalisation in the healthcare sector,' says Thomas Freitag, Managing Director of achelos GmbH.

#### **Key focuses of the partners at the 'Fit for IT security!' stand:**

**achelos** supports manufacturers of digital eHealth solutions and providers of specialist services like digital health or care applications (DiGa, DiPA) in connecting to and integrating in TI 2.0. The IT security experts help here with adapting to new security standards and introducing federated identities.

**IS4IT Kritis** focuses on the protection of critical infrastructures, cybersecurity consulting, governance risk & compliance, security & penetration testing, the security operation centre (SOC), telematics infrastructure and the managed data center.

At DMEA, **Samhammer** will concentrate on the topics of rollout and maintenance for hardware and software solutions in the field of telematics infrastructure, secure supply chain, on-site services, KI service solutions and digital helpdesk solutions.
