Qualified Trust  
Service Provider**

*PrimeKey and achelos offer eIDAS compliant TSP services as partners*

**Solna (Sweden) | Paderborn (Germany), March, 24, 2020 – PrimeKey Solutions AB and achelos announced a new partnership today. Together PrimeKey and achelos offer the perfect blend of products and services to reduce the complexity of becoming and sustaining an eIDAS compliant Qualified TSP service.**

achelos offers extensive expert knowledge, development services as well as tools and services for automated test procedures to support eIDAS implementations and audit processes.

PrimeKey's PKI products, EJBCA Enterprise and the eIDAS edition, provide issuance, registration and validation PKI services compliant with the eIDAS regulation. PrimeKey has numerous eIDAS and ETSI Webtrust audited customer installations. Specifically, PrimeKey has appreciated working with 30+ eIDAS (Q)TSPs until today.

## Press release

A number of building blocks are required to build an eIDAS (Q)TSP solution. To provide a solid and long-lasting solution, it is absolutely necessary that all individual components are working smoothly and seamlessly together. *“With this new partnership, achelos’ knowledge on PrimeKey PKI products combined with expertise and proven experience in implementing eIDAS audited solutions, we will be able to continue to deliver cost-efficient projects and solutions in a more efficient way to more customers as eIDAS evolves,”* explains Evangelos Popis, PrimeKey Sales and Partner Manager, DACH.

*“We believe that eIDAS is driving transparency, interoperability and innovation across the European Union. PrimeKey’s Public Key Infrastructure and electronic signing solutions offer the optimal platform for implementing eIDAS compliant solutions. achelos offers comprehensive expertise for development, testing and certification for the European eIDAS Regulation,”* says Kathrin Asmuth, Managing Partner at achelos. *“Customers benefit from additional support during implementation and the eIDAS Inspector test system for high quality assurance and a faster time to market,”* adds Michael Jahnich, Partner Manager at achelos.

As one of the world’s leading companies for PKI and signing solutions and as a leading company that develops and operates highly specialised products, solutions and services for security-critical applications in international markets, PrimeKey and achelos are committed to continuing to drive the adoption of digital signatures and the eIDAS regulation across Europe.
